

# Underbody Scraper

SNOWFOE Series™

**Henderson**

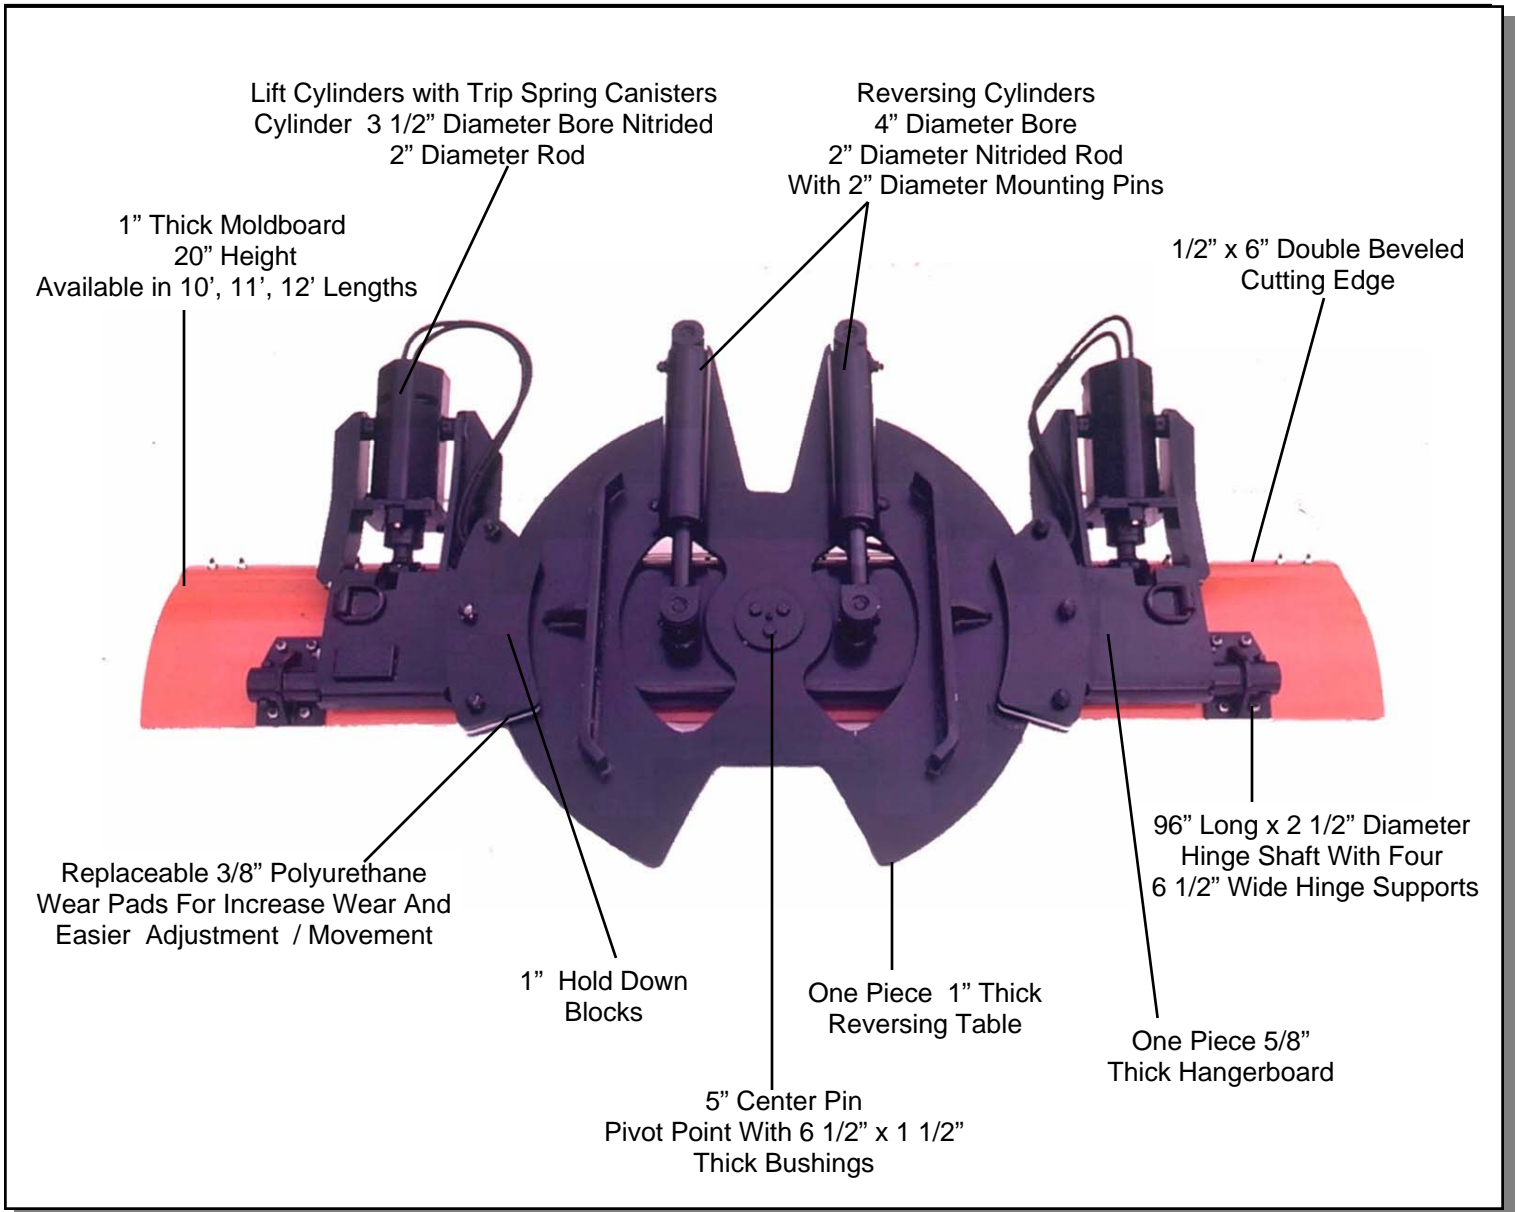

**Henderson Manufacturing** has yet another year round road maintenance product. This heavy duty underbody scraper features two double acting, power reversing cylinders for plowing angles up to 45 degrees. The 1" thick moldboard is available in 10', 11' and 12' lengths and is designed to provide superior winter snow and ice removal as well as summer road and shoulder grading capabilities.

*The Dependable Ones*
